Early 2023 — Present

Kurly Brackets · Rawalpindi, Pakistan · On-Site

- Shipped **8+ commercial mobile games** on Google Play, driving the full cycle from gameplay prototyping and mechanics design to store release across puzzle, arcade, physics, and party genres.
- Architected modular **Unity/C# gameplay systems**, including state machines, character controllers, physics-driven interactions, and tuned ragdoll combat behaviors.
- Engineered dynamic **UI/UX systems** with responsive multi-resolution canvas scaling and interactive step-by-step tutorial onboarding flows.
- Integrated **Firebase Realtime Database** (leaderboards, authentication) and monetization stacks (**AdMob, IAP**); optimized mobile runtime through draw-call batching and profiler analysis.

Game Developer

6 Months

Motion Maze · Remote Studio

- Programmed core **gameplay mechanics, UI systems**, and game logic for mobile projects within an agile, collaborative remote team pipeline.
- Coordinated cross-functionally with 3D artists and game designers, delivering versioned feature builds through structured Git version control workflows.

SELECTED PROJECTS

The Forgotten Train: VR Escape

Solo Developer & 3D Artist · Unity XR · Meta Quest · PC VR

Atmospheric VR puzzle escape room built 100% solo in **Unity XR**. Engineered two-handed physics interactions, socket/docking systems, and valve puzzles; created all 3D modular assets in **Blender** with **Substance PBR** texturing.

Selah: Bible Charades

Lead Unity Developer · Android · [Live on Google Play](#)

Published mobile party game featuring custom **gyroscope & tilt forehead motion controls**, dynamic cloud-updated card decks, in-game video recording, and responsive multi-resolution UI.

2468 Block Puzzle: 2048 Merge

Gameplay & Backend Developer · Android · Live on Google Play

Fast-paced block-merging puzzle with **Firebase Realtime Database** leaderboards, user authentication, interactive onboarding tutorial, and **AdMob / IAP** monetization.

Mr Greedy: Ragdoll Punch

Core Gameplay & Physics Developer · Android · Live on Google Play

3D physics combat title implementing tuned **spring-joint ragdoll mechanics**, impulse hit reactions, dynamic camera shakes, and cosmetic unlock reward systems.
